Ashwan Sai Ragav A

9940346881 | ashwansairagav9522@gmail.com | linkedin.com/in/ashwan-sai-ragav | github.com/Ash-1477

Education

Chennai Institute of Technology

Bachelor of Engineering in Computer Science and Engineering | CGPA – 7.65 *2nd Year*

Internship Experience

Web Development Intern Jun 2026 – Jul 2026

Cognifyz Technologies

- Developed responsive web applications using HTML, CSS, JavaScript and frameworks.
- Worked on real-world projects, implemented UI components and fixed frontend issues.
- Collaborated with the team to improve website performance and user experience.

Cybersecurity Intern May 2026 – Jun 2026

Thiranex

- Assisted in monitoring security systems and analysing potential threats.
- Worked with the team on vulnerability assessment and basic penetration testing.
- Gained hands-on experience in network security and incident response procedures.

Projects

Smart Waste Segregation Assistant | *Web Application*

- Developed a web application that helps users identify and segregate waste using image recognition.
- Implemented a machine learning model to classify waste into biodegradable, recyclable and non-recyclable.
- Designed a clean and responsive UI with real-time feedback for better user interaction.

Phishing Email Detection Model | *Python, pandas, scikit-learn*

- Developed a machine learning model to classify emails and identify potential phishing attempts using Python, pandas, and scikit-learn.
- Processed email text and email-type data to support phishing detection and improve email security awareness.

Vulnerability Scanner | *Python*

- Developed a Python-based security tool to scan specified targets for potential vulnerabilities and identify common security risks.
- Streamlined initial security assessments by presenting scan findings for further investigation.

Password Strength Analyzer | *Python*

- Built a Python-based tool to evaluate password strength based on criteria such as length, character diversity, and complexity.
- Provided strength assessments and feedback to encourage the creation of stronger passwords and improve password security.

Technical Skills

Programming Languages: Python, C, C++, JavaScript, Java

Web Technologies: HTML, CSS, JavaScript, React (Basics), Node.js

Databases: MySQL, MongoDB

Frameworks & Tools: Git, GitHub, VS Code

Other Technologies: Linux, Docker (Basics), Firebase (Basics)

Concepts: Data Structures and Algorithms (DSA), Problem Solving, OOPS

Soft Skills: Communication, Team Collaboration, Problem Solving, Leadership, Time Management, Adaptability

Career Interest: Software Development, Web Development, Cybersecurity, Cloud Computing

Certifications

Oracle: OCI Foundation Associate, OCI AI Foundation Associate, Oracle Data Platform Foundation Associate
Cisco: Cisco Networking Essentials 1, Cisco Networking Essentials 2

Achievements

- Solved 450+ problems on LeetCode.
- Participated in EY Techathon 6.0.
- Participated in E-Summit ’25.
